

## **We welcome Francophone IMMIGRANTS**

Since its inception in 1997, **RDÉE Canada**, the only national economic development network for Francophone and Acadian communities (FACs), has optimized the economic potential of these communities with the help of 12 provincial and territorial organizations.

In the last year, the network as a whole has developed over 70 economic immigration initiatives primarily aimed at the recruitment, integration and retention of immigrants.

**RDÉE Canada**, architect of FAC economic development, needs your support to continue its mission—to actively contribute to Canadian economic growth.
